

EMS company profile

15 years experience

***customer oriented • custom solutions
system integration • deep know-how
experience • sea-going***

We add value to your technology.

We focus on data quality and valid results.

***We make relevant contributions to ocean science and
exploration.***

***Our capabilities are sampling platforms, instrument systems &
oceanographic engineering !***

***'We find custom technical solutions to every project. We work
together with the leading sensor and technology manufacturers
having deep understanding of their applications. We have extensive
know-how and more than 10 years experience working locally and
internationally'***

Our leading partners and principals :

***SEA-BIRD Electronics • Teledyne RDI • WETLabs • Biospherical • Turner
Designs • Chelsea Technologies Group • Sequoia Scientific • DA
Instruments • Technicap • OSIL • Flotation Technologies • Link-Quest
ISE International Submarine Engineering • Bluefin Robotics
Deep Sea Power and Light • VideoRay • Deep Ocean Engineering •
ATLAS Hydrographic • MacArtney • Subconn • Falmat Cables***

EMS oceanographic engineering

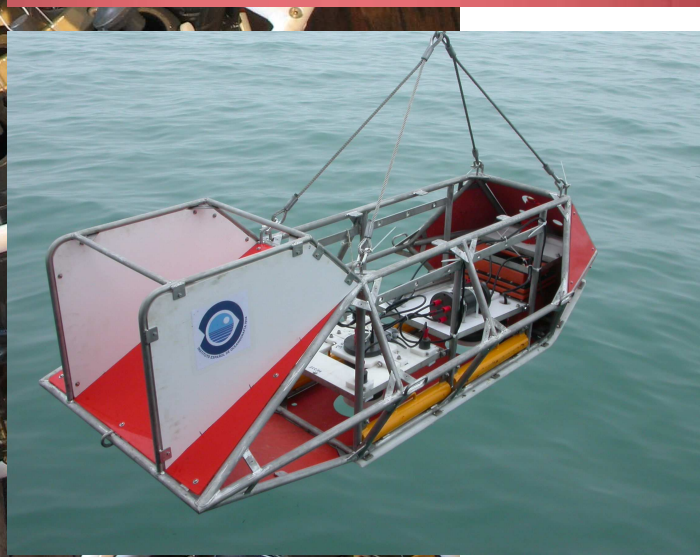

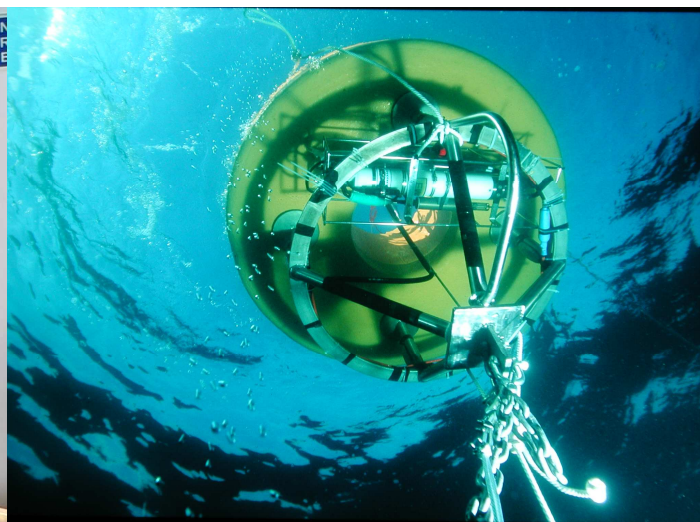

hardware • software • electronics •
precision mechanics • connectivity • cables •
system integration • testing •
• custom solutions •
www.ems-sistemas.com

EMS sampling platforms

oceanographic buoys • vessels •
submarine observatories • robots • moorings
sensor networks • telemetry systems
custom solutions • www.ems-sistemas.com

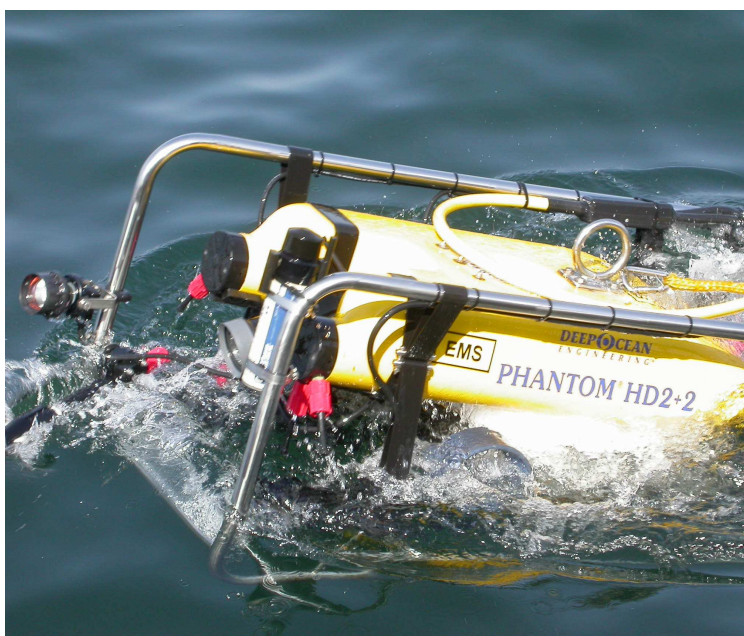

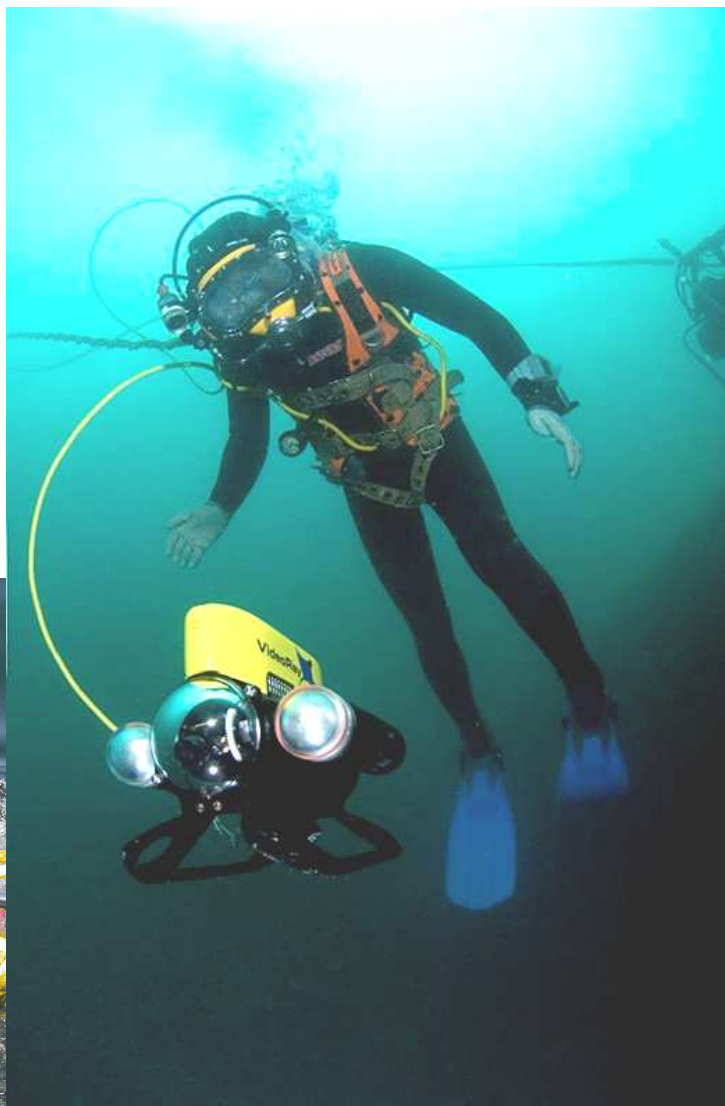

EMS instrument systems

**CTD • ADCP • IOP / AOP •
IM / ACOUSTIC uw-telemetry • hardwired •
GSM / radio / SAT sfce telemetry • dataloggers
system integration • custom solutions**

EMS field services

- ROV
- survey
- oceanography
- training
- maintenance
- diving

www.ems-sistemas.com

EMS submarine vehicles

**ROV • TOWED • AUV
FLOATs • GLIDERS
system integration • prototyping • testing •
• operations • training • custom solutions
